The Role: Short Description

Do you want to join one of the world's most prestigious and exciting vehicle manufacturers? Ferrari are looking to offer candidates who are passionate about a long-term career within the automotive industry an opportunity to start their career as an apprentice, giving you the skills and qualifications to develop your prospects as your aspirations grow.

The Role: Long description

The Ferrari Apprenticeship Programme is designed to train and develop apprentices in a way that enables them to keep pace with advancing technology and high levels of customer service.

The comprehensive, Programme provides apprentices with an exciting and challenging opportunity to achieve formal qualifications through extensive product training, while in full-time employment.

JCT600 Brooklands Ferrari have a fantastic opportunity for a Light Vehicle Technician Apprentice to join their prestigious approved Ferrari dealership based in This is an exciting opportunity with world-class training at the Ferrari training facility in Slough and superb future career prospects.

Duties will include:

- Working alongside qualified Ferrari Technicians with the investigation, repair and service of vehicles
- Producing estimates
- Carrying out diagnostics
- Warranty work
- Assisting with MOT's on Ferrari vehicles

- Other general technical duties and general housekeeping
- Providing excellent customer service to internal and external customers

The training will take place eight separate weeks per year via block release to Ferrari training facility in Slough.

The ideal candidate

Ferrari are looking for young people with an agile and logical mind wishing to combine those skills with a practical approach to working

The ideal candidate will have:
Good communication skills
A passion for the automotive industry
An enthusiasm to learn with an interest in development and progression
A 'can do' attitude

The ideal candidate will be:
Hardworking; punctual; reliable; able to use own initiative;

Skills required:

Excellent communication skills
A keen interest in and knowledge of the motor vehicle industry
Mechanically minded with meticulous attention to detail
The willingness to also undertake basic duties as part of training.

Qualifications required:

5 GCSE's at grade A* to C (or equivalent) including Maths, English essential. Science and ICT are desirable

Long term company aims for the Apprentice:

On completing the 2 year course, apprentices will gain an NVQ Level 2, an IMI Technical Certificate, an Advanced Apprenticeship Completion Certificate and Key and Core Skills Certificates relevant to their chosen specialist area.

Upon successful completion and review of your apprenticeship you will progress onto a level 3 qualification. Your salary shall be reviewed throughout your apprenticeship.

Training Provided:

For the Light Vehicle Technician, Intermediate Apprenticeship The training will take place eight weeks per year via block release to The Ferrari Training Facility at Slough

The nationally recognised qualifications include:

- IMI level 2 Diploma in Light Vehicle Maintenance & Repair Competence
- Level 2 Diploma in Light Vehicle Maintenance and Repair Principles

This is carried out by one to one learning sessions through a regular 8 weekly visit cycle from EMTEC Vocational Learning Advisors who observe all evidence opportunities that occur naturally in the workplace.

Important Other Information

The current National Minimum Wage (NMW) rate for apprentices is £3.30 per hour. This applies to 16-18 year old apprentices and those aged over 19 in the first year of their Apprenticeship. For all other apprentices the National Minimum wage appropriate to their age applies. The Minimum Wage for Apprentices applies to time spent on the job plus time spent training.

* Please note that anyone over the age of 18 may be offered to work over 40 hours per week *

Please note if the successful applicant is found prior to the closing date the vacancy maybe withdrawn early

The post-holder must be working towards gaining their driving licence by the end of the apprenticeship in order to eventually move vehicles as part of the role.

The apprentice will be expected to purchase basic tools throughout the apprenticeship duration to build up their own kit.

Reality Check (Any further information about the role we need to make the learner aware of. For example: shift work, late nights or if a Disclosure and Barring Service check required before a position is offered)

The candidate must be available to start immediately and be able to travel to the workplace according to the working hours.

The candidate must be able to attend the block release training weeks at Slough 8 weeks per year.
